Subject :	SEHH2238 : Computer Networking
Lab/Tutorial :	**Session 0 : Overview of the subject**

A. Teaching Arrangement

- The lectures are arranged to cover the **TCP/IP Protocol Suite**, or OSI Model of the Internet in old days, using a bottom-up approach.

- All tutorial and lab sessions are designed to follow the corresponding lecture. Using hands-on exercises for revision purpose. So that students can have solid understanding of the materials covered in lectures.

B. Test your knowledge

1) Fill in the names of the protocol layers below:

	OSI Model		TCP/IP Protocol Suite	
Layer 7	Application			
Layer 6	Presentation	Application	Layer 5
Layer 5	Session			
Layer 4	Transport	Transport	Layer 4
Layer 3	Network	Network	Layer 3
Layer 2	Data Link	Data Link	Layer 2
Layer 1	Physical	Physical	Layer 1

OSI Model   **TCP/IP Protocol Suite**

2) What are the major tasks responsible by each layer?

Refer to Lecture 1 notes.
